PROFESSIONAL SUMMARY

Python Developer with a Master of Computer Applications (CGPA 8.44/10) and hands-on experience building backend web applications using Python, Flask, and MySQL, and integrating AI features through the Google Gemini API. Experienced in database design, user authentication, and web development through projects such as an AI Resume Analyzer and an Online Examination System. Seeking an entry-level Python / Backend Developer role to build reliable, AI-powered applications and solve real-world problems.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, PHP, SQL

Backend Development: Python (Flask), PHP, Java

Frontend Development: HTML5, CSS3, JavaScript

Databases: MySQL, TiDB

Cloud & Backend Services: Firebase

APIs & Tools: Google Gemini API, Git, GitHub

PROFESSIONAL EXPERIENCE

Website Management Intern

Aug 2025 – Oct 2025

The Digital India

- Updated 100% of website content on a monthly cycle, keeping pages accurate and up to date.
- Added, removed, and modified website content based on business requirements.
- Identified and fixed common website errors, improving website functionality by 20%.
- Assisted with database management and routine website maintenance.

PROJECTS

AI Resume Analyzer

Jun 2026 – Jul 2026

Python, Flask, Google Gemini API, TiDB

- Developed an AI-powered resume analysis web application using Python and Flask.
- Integrated the Google Gemini API to analyze resume content and generate AI-based feedback, achieving 30% faster resume analysis.
- Stored and managed application data in TiDB.
- Enabled users to review their resumes and identify areas for improvement.

3D Responsive Website

Jul 2026 – Aug 2026

HTML5, CSS3, JavaScript, Firebase

- Designed and developed a modern responsive website with interactive 3D visual elements, with layouts for desktop, tablet, and mobile.
- Implemented interactive animations and visual effects using JavaScript.
- Integrated Firebase for backend functionality and data management.
- Enhanced user experience by 40% through clean design and responsive behavior.

Online Examination System

Apr 2025 – May 2025

- Developed a web-based examination system for conducting and managing online quizzes.
- Implemented user registration, login, quiz management, scoring, ranking, and feedback features.
- Built backend logic and designed database structures for users, questions, quizzes, and results.

Additional Python Projects

QR Code Generator, Password Generator, To-Do List, Number Guessing Game, Tic Tac Toe, and Calculator – Python applications built to practice programming logic and user input handling.

EDUCATION

Master of Computer Applications (MCA)

CGPA: 8.44 / 10

Techno India University

Bachelor of Computer Applications (BCA)

Percentage: 68%

Burdwan Raj College, The University of Burdwan
